

FIRST & ONLY IN COLLIER COUNTY

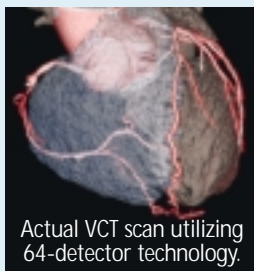

VCT volume computed tomography

TECHNOLOGY SAVING LIVES

Now only at NDIC, the latest in Computed Tomography (also called CAT Scan) brings dramatically reduced time spent in the exam to patients, and improved image quality to physicians. In fact, a comprehensive view of the heart and coronary arteries with sub-millimeter resolution can be done within 5 beats of the heart.

Completely painless and non-invasive this "64-detector" technology has been featured in Time and on the Today Show and Oprah as an important new tool in diagnosis of disease including heart calcification.

Actual VCT scan utilizing 64-detector technology.

Make NDIC your partner in health for the latest technology, the best medical staff and the most responsive service.

Staffed by Naples Radiologists, P.A.
